2019 ST. CROIX FORESTRY CONFERENCE

MARCH 28-29

LODGE AT CROOKED LAKE SIREN, WI

Wisconsin and Minnesota foresters, loggers, natural resource professionals, land managers, and landowners interested in forest management for healthy watersheds are invited to attend the 2019 St. Croix Forestry Conference.

This year's conference is focusing on forest management for ecosystem health, wildlife and water quality in the St. Croix watershed.

NEW: This year's conference will also offer half-day workshops on:
Herbicide Training for Forest Invaders
Native Jack Pine Management for Native Habitat and Timber

Continuing Forestry Education Credits Available!
